

C40

Product Name: C40

Model: NRS-C40

Description:

PROFESSIONAL FLOOR CLEANING

C40

C40 brings sweeping, vacuuming, scrubbing and dust pushing into one autonomous solution for commercial floors.

KEY FEATURES

High efficiency. Easier maintenance.

400 mm brush for versatile cleaning

Five-second battery swap

Triple-brush dry-wet separation

Fast drying after scrubbing

Built around daily commercial work.

Triple-brush cleaning with dry-wet separation

Two front rollers pre-sweep debris while the rear roller scrubs. Zoned collection helps keep dry waste dry and leaves floors cleaner after a single route.

Dry floors, fewer safety concerns

Powerful water recovery and a fast-drying workflow reduce residual water after scrubbing and help maintain a clean finish.

Smart control at your fingertips

App and web tools support 24/7 task management, remote monitoring, status notifications and cleaning reports.

Confident perception in complex sites

LiDAR, stereo vision, line lasers and ultrasonic sensing work together to navigate around people and irregular obstacles.

APPLICATION SCENES

Adaptable to commercial spaces.

ACCESSORIES

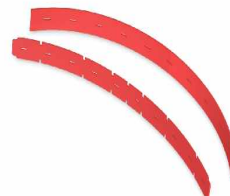

Configured for every cleaning task.

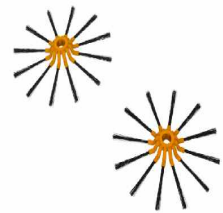

Sweeping brush

Scrubbing brush

Squeegee blade

Side brush

HEPA filter

Sweeping fiber brush

Dust mopping brush

Dust bag
