

C55

Product Name: C55

Model: NRS-C55

Description:

AUTONOMOUS FLOOR CLEANING

C55

Built for demanding medium and large spaces, C55 combines sweeping, scrubbing and water recovery in one reliable autonomous workflow.

KEY FEATURES

Cleaner results, continuous operation.

**Sweep and scrub
in one pass**

**Large clean and
waste-water
capacity**

**Hot-swappable
dual-battery
system**

**Chassis designed
for complex sites**

Cleaning that keeps moving.

One pass, two essential cleaning jobs

The triple-roller system brings dry debris collection and floor scrubbing together, helping teams cover more area without repeated passes.

Ready for longer cleaning cycles

Generous water capacity and quick battery replacement reduce routine interruptions so the robot can stay productive throughout the day.

Navigate busy spaces with confidence

Multi-sensor perception supports precise route planning around people, furniture and changing site conditions.

Simple daily operation and maintenance

Automatic water handling, assisted manual control and an accessible maintenance design help keep daily work straightforward.

APPLICATION SCENES

Built for commercial environments.

ACCESSORIES

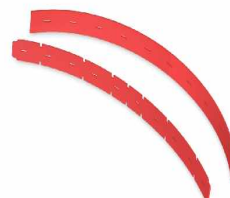

Configured for the work at hand.

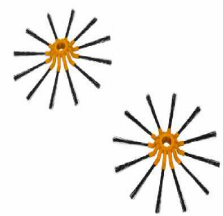

Sweeping brush

Scrubbing brush

Squeegee blade

Side brush

PRODUCT PARAMETERS

Dimensions (W × D × H) 860 × 850 × 1082 mm, including squeegee	Weight 150 kg, including battery
Theoretical cleaning efficiency Up to 2376 m²/h	Scrubbing width 550 mm, excluding side brush
Maximum runtime Up to 5 hours; supports battery swapping	Charging time Approximately 4 hours
Water tanks 60 L clean water / 47 L waste water	Dust boxes Front: 2 L / Rear: 0.7 L
